

STATE ROUTE 41 FREEWAY EXPRESSWAYCONSTRUCTION

December 2000

Project Purpose: The State Route project will provide two additional lanes and a 60 foot median to the existing two-lane undivided expressway. The project will improve safety, provide increased capacity and provide route continuity.

Description: In Fresno County the project calls for State Route 41 to go from a two lane expressway to a four-lane expressway and removing the four to two lane transition from Adams Avenue to Floral Avenue. The construction will be from 0.2 miles north of Elkhorn Avenue to Adams Avenue. The project length is approximately 10 miles.

**Construction
Cost:** \$11 million

**Funding
Sources:** State Transportation Improvement Program (STIP)
Both Federal and State Highway Funds

Begin Construction: December, 2000

**Anticipated Completion
